EDUCATION

- **Indira Gandhi Delhi Technical University For Women** August, 2023 - June, 2027
  B.Tech in Mechanical and Automation — CGPA: 8.65

EXPERIENCE

- **Software Development Intern** April, 2026 - Present
  NAVCO INDUSTRIES PRIVATE LIMITED *Remote*
  - Engineered a two-phase **FDA 510(k) document intelligence system** - downloaded **62,885 summary PDFs** across 175,013 records with a parallelized resumable pipeline, then built a local **RAG engine** indexing **1.1M chunks** into ChromaDB with LLM draft generation achieving **100% structural fidelity** and zero hallucinated citations.

PROJECTS

- **Smart Expense Tracker (Java, Spring Boot, JPA, JWT, Docker)**: **GitHub** **Live Link** July, 2026
  - Architected a **stateless Spring Boot REST API** across **32 classes** using a **Controller–Service–Repository** structure, with **10+ endpoints** for auth, expenses, analytics, and savings, secured via **JWT** and **BCrypt**-hashed credentials with per-user data isolation.
  - Persisted data through a **JPA/Hibernate** layer over H2, added **3 analytics modules** plus an **80%-threshold savings recommender**, then **containerized with Docker**.
- **Finance Dashboard API (FastAPI, PostgreSQL, JWT)**: **GitHub** **Live Link** April, 2026
  - Built a **secure REST API** with **JWT authentication**, **revocable refresh tokens**, and **3-level RBAC** (admin/analyst/viewer) enforced at the API layer; used **Pydantic v2** validation, **optimistic locking**, and a full **audit trail** on all financial records.
  - Implemented a **per-IP sliding window rate limiter**, **financial records CRUD** with filtering and pagination, **dashboard analytics APIs** (totals, trends, category breakdown).
- **Chatly (FastAPI, WebSockets, SQLite)**: **GitHub** **Live Link** March, 2026
  - Developed a **real-time group chat application** using **FastAPI WebSockets**, supporting **3 chat rooms** with live presence tracking, message history (last 50 messages), and **auto-reconnect with exponential backoff**.
  - Independently scoped and shipped the full feature end-to-end, authored a **feature spec before building** and a **post-ship reflection**, with **XSS-safe rendering** and **SQLite-backed message persistence**.

TECHNICAL SKILLS

- **Languages**: Java, Python, SQL
- **Backend**: Spring Boot, FastAPI, REST APIs, WebSockets, JWT Auth
- **Database**: PostgreSQL, SQLite
- **AI/ML & Data**: LangChain, ChromaDB, Ollama, sentence-transformers, PyMuPDF
- **Core CS**: Data Structures & Algorithms, OOP, DBMS, Operating Systems
- **Tools**: Docker, Maven, Streamlit, Git/GitHub

ACHIEVEMENTS

- **DecodeX - NLD Synapse 2026**: **National Finalist**, N.L. Dalmia Institute.
- **Asian Paints Alchemy Challenge 2026 (Certificate)**: **Top 93 of 11,500+** teams nationwide; sole qualifier from college.
- **Young Turks 2025 - Aptitude Test (Certificate)**: **97.32 percentile**, top 3% nationally.
- **GHCI'24 Advancing Inclusion Scholar**: Selected as **GHC India 2024 Scholar** by AnitaB.org.
- **Top Performer Award - App Dev (Certificate)**: **Best Mentee among 15**, MSC IGDTUW Summer Bootcamp.
- **Millennium Fellow, UN Academic Impact & MCN**: **Top 4% of 60,000+** applicants.

POSITION OF RESPONSIBILITY

- **Mentor, AnitaB.org & WomenTech Network**: July, 2024 - May, 2026
  - Mentored **3 women in tech** through personalized learning plans, focusing on technical skill development, confidence building, and career readiness.
- **President of Editorial Board, Mother's Global School**: April, 2020 - May, 2022
  - Led the editorial board and managed end-to-end publication of the annual school newsletter, ensuring **100% on-time delivery** and high content quality.
